

# Crime Incidents in Buffalo NY

*Liz Lorence*

*November 16, 2018*

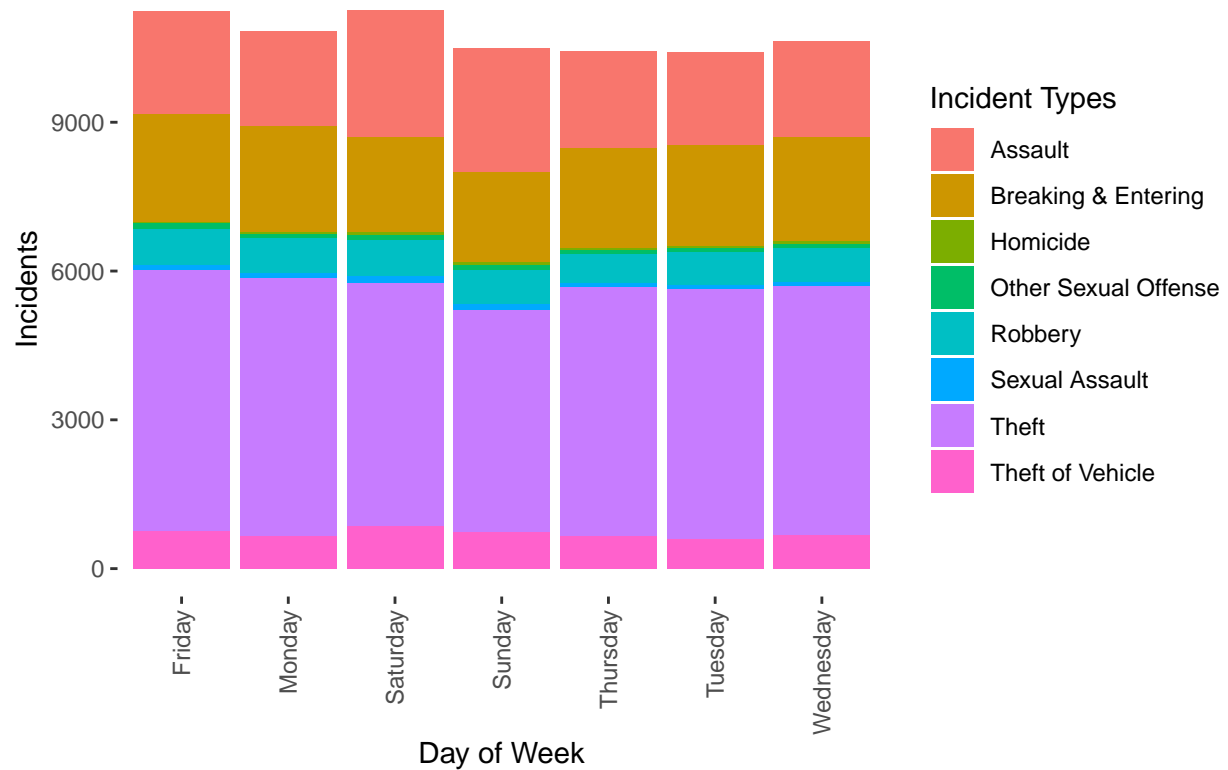

In my analysis, I examined crime incidents in the city of Buffalo, New York from 2014 to 2018.

## Crime in Buffalo in the Past 5 Years

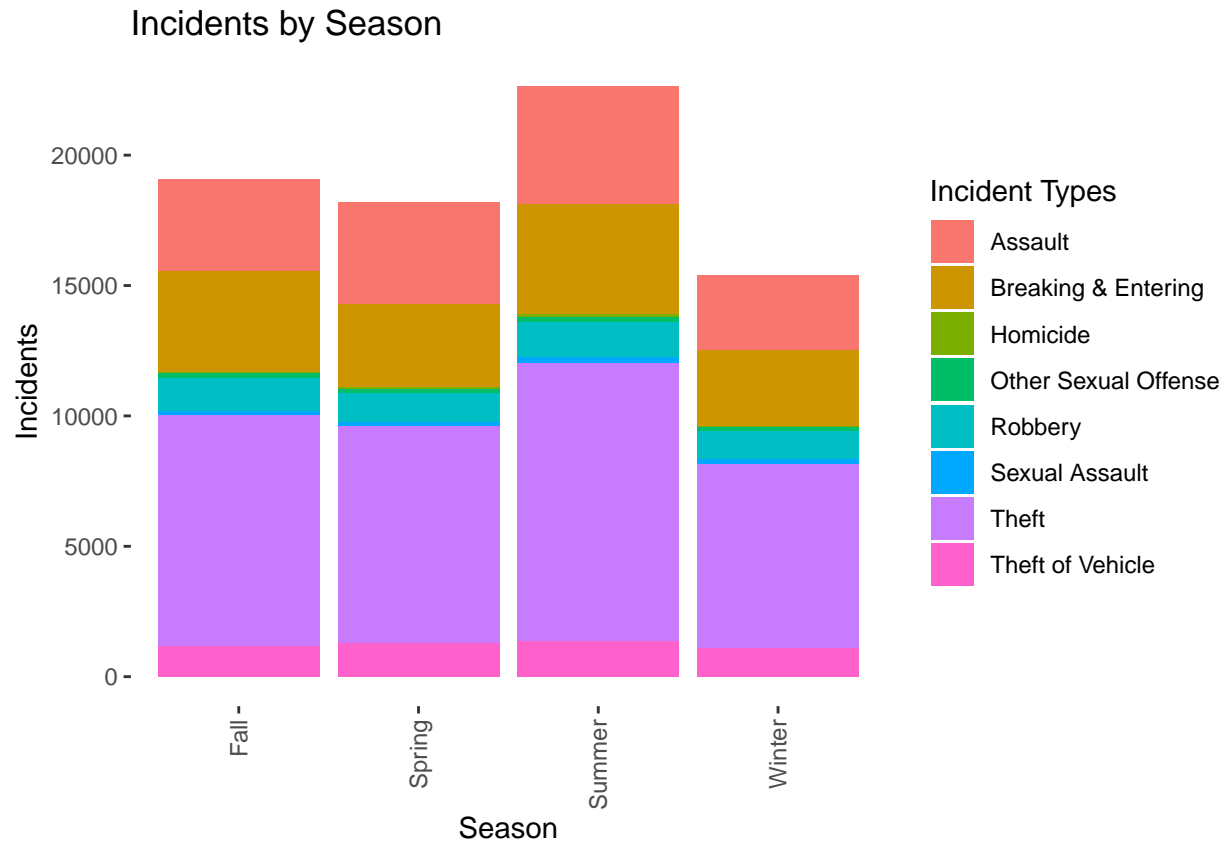

Overall crime has decreased in Buffalo. In particular Buffalo has seen a decrease in theft, assault, and breaking & entering incidents. Other incidents have remained consistently rare.

Incidents by Day of the Week

Here I examined crime incidents by the day of the week the incidents took place. I predicted that weekends would have more incidents of crime than week days but by large that does not seem to be the case. On Fridays and Saturdays only slightly more crime incidents occur.

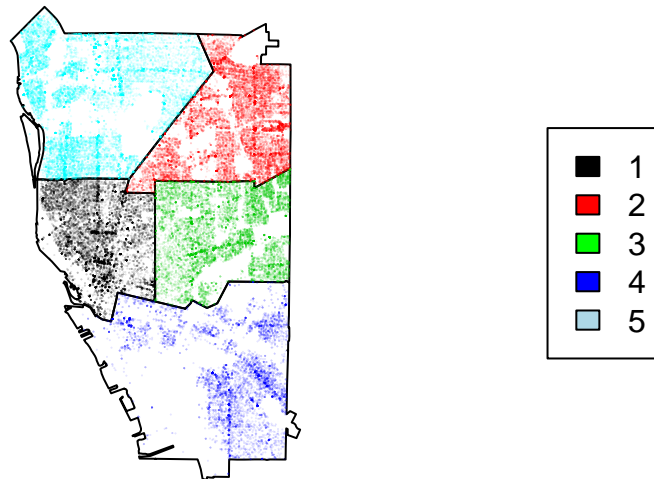

Here I examined incidents of crime by season. There is a clear increase in incidents during summer months. You can also see a clear decrease in incidents during winter months. Criminals hate the freezing cold weather in Buffalo.

Table 1: Incidents by Police District

Police Districts	Number of Incidents
1	16561
2	17961
3	14159
4	8424
5	17908
NA	306

## Crime in Buffalo from 2014 to 2018

Here I analyzed incidents of crime by police districts. The 4th police district in South Buffalo has far fewer incidents of crime than the other districts.
